**BEECHCRAFT FINANCE
AND LEASE PLANS**

Your Beechcraft salesman will be happy to explain easy ways to acquire your new Duke B60 without using your valuable working capital. Either a Beech finance or lease plan can be tailored to fit your specific business requirements.

Leasing through the Beech Acceptance Corporation gives you the advantage of a company-owned plane which remains yours for the life of the lease; three to five years. Leasing can be terminated at any time with a small closing payment . . . or converted into a purchase plan with the bulk of the lease payments applying against the purchase price.

A wide choice of both leasing and finance plans is available to you through the Beech Acceptance Corporation. Just one specific advantage of all such plans is lower cost group insurance. Ask your Beechcraft salesman for details!
